OpenVM Checklist for Students and Lifelong Learners

A checklist for students and lifelong learners has been created to help them navigate through the support offered by the OpenVM project. A student of lifelong learner who has (or wants to) follow a Virtual Mobility Course, can use this checklist to figure out which OpenVM Credentials might be useful to her, based on the completed (or desired) learning experience. Additionally, it also points to OpenVM MOOCs that can further develop or deepen existing skills of a learner.

Virtual Mobility Checklist

Use this checklist to see if you can gain any OpenVM badges building on your Virtual Mobility course

partner institutions	☐ organised by multiple organisations in different countries ☐ organised by an organisation in another country than student	Intercultural Skills
group work	☐ group work with local groups	Collaborative Learning
	☐ group work with international groups	Collaborative Learning · Intercultural Skills
student activities	☐ project work	Collaborative Learning · Self-Regulated Learning · Autonomy-driven Learning
	☐ individual assignments	Self-Regulated Learning · Autonomy-driven Learning · Networked Learning
	☐ creation of new material	Open Mindedness · Media & Digital Skills
coaching	☐ direct interaction with teachers from other institutions	Intercultural Skills · Open Mindedness
